# About Us

## The Meridius® World

At Meridius® we believe in a world of well-being and interconnection where people of all fitness levels can live a better life through an active and healthy lifestyle.

We are dedicated to helping anyone who wants to move better, heal faster and live healthier by bringing together high quality, professional products and programmes that push the physical and mental limits.

Try Meridius® products today and **Dare to Challenge!**

## Why choose Meridius®?

Our commitment to you is simple. We always make sure you get the best, most reliable acupuncture and physiotherapy products, manufactured and tested by renowned scientists and athletes to meet the exact needs and expectations of the human body.

### **We are passionate!**

Everything we do, we do with passion. We believe the best way to help others become a better version of themselves is by getting **involved**. Therefore, we are always happy to help local organisations attract more people in the active lifestyle movement and to sponsor charitable events.

### **We are responsible!**

Choosing people over money is our way of being responsible. Leaving the world a little better than we found it, gives us the determination to sponsor young thriving athletes and empower them to be more than just successful athletes, but also successful individuals.

### **We are accountable!**

Quality control is at the core of our business. We are accountable for our products and programmes. If there is something that doesn't meet your expectations, please get in touch with our team and we will do everything in our power to make it right.

### **We are determined!**

To achieve the change we want to see in the world we must never settle for less than our best. We are continuously striving to outperform ourselves in terms of quality and customer service. Only by educating our staff and listening to our customers, we can hope to achieve greatness. So don't be shy and share your feedback with us.

# ECO Range

Stainless steel, gamma ray sterilized acupuncture needles packed in eco-friendly packaging

## Reliable. Safe. Eco.

Meridius® ECO is a range of high quality, reliable, stainless steel acupuncture needles with a Korean-style spring handle generally preferred by traditionalists.

Being gamma ray sterilized allows the product to be used for up to 5 years after the date of production making it more convenient for both occasional users and clinics.

The eco-friendly box is made up of 50 pouches containing 10 needles per pack with 1 guide tube making it convenient for transportation and storage in medical bags.

Meridius® ECO can be used during moxibution or electro-acupuncture sessions due to its 100% stainless-steel handle.

We take extra care to ensure we reduce our environmental footprint, that's why, Meridius® ECO uses less cardboard and plastic for packaging.

## Packaging

## Product codes

Code	Dimensions

MECO3040	0.30 mm x 40 mm
MECO3050	0.30 mm x 50 mm

# PURE Range

Silicone-free, EO gas sterilized acupuncture needles with Chinese-style copper handles

## Safe. Traditional. Economic.

Meridius® PURE range has been developed for those who are looking for a traditional silicone-free acupuncture needle.

It features a Chinese-style copper handle which works perfectly during moxibustion as the loop on the top allows the moxa to be firmly placed.

The needle is made of 100% stainless-steel which in combination with the 100% copper handle, features a high electrical conductivity which improves the electro-acupuncture sessions.

Meridius® PURE range comes in 100 needles per box, each needle being packed individually to ensure no needle goes to waste if the packaging is opened.

Being EO gas sterilized, the needles can be used for up to 3 years after the production date.

# JET Range

Modern acupuncture needles with comfortable colour-coded handles

## Modern. Visible. Light.

Meridius® JET range is made for those who prefer a modern approach to the traditional ways of acupuncture. Manufactured to meet the highest traditional standards, but designed to meet the needs of modern patients, Meridius® JET features a silicone coating that ensures a smoother and comfortable acupuncture session.

Featuring plastic handles, the needles are easier to hold and manipulate due to a firmer grip made possible by the texture of the plastic. Moreover, being made of 100% plastic, the handle is lighter and colour-coded so the practitioner could easily differentiate between the needle thicknesses.

This range of needle is not designed to be used during moxibution therapy or electro-acupuncture sessions.

# RENEW Range

High quality auricular detox needles made for sensitive areas

## Detox. Visible. Light.

Meridius® RENEW is our range of detox acupuncture needles made specifically for sensitive areas such as the ears, scalp and face.

Featuring colour-coded plastic handles, the needles are not only easily visible and identifiable, but also lightweight which means they remain in place.

This range of acupuncture needle is not designed to be used during moxibustion or electro-acupuncture sessions.

A box of Meridius® RENEW contains 1000 needles, packed in blisters of 5 needles to ensure high quality protection when transporting.

Being EO gas sterilized, the needles can be used for up to 3 years after the production date.

# ADAPTA 5M Tape

Premium kinesiology tape with a special outlet to facilitate easy access

## Premium. Reliable. Natural.

Meridius® Adapta Tape is the result of years of development and testing conducted by top athletes and renowned scientists.

This 5 cm wide kinesiology tape is comfortable to wear, but also sticks for up to 4 days due to the premium hypo-allergenic adhesive that's being used.

Meridius® Adapta Tape is made of 72% cotton, 3% Spandex, 10% acrylic polymers and 15% ethyl acetate allowing a stretch up to 140% on its length while still being firm and supportive.

Using only high quality materials, we have created a water resistant, bi-linearly elastic kinesio tape that doesn't compromise the natural range of motion.

Meridius® Adapta Tape has shown great results in improving subcutaneous circulation, helping with muscle soreness, supporting joint function and stability, improving posture and muscle coordination.

# ADAPTA 32M Tape

Premium kinesiology tape with a special outlet to facilitate easy access

## Premium. Reliable. Natural.

Compared to the 5 m version, Meridius® Adapta Tape 32 m is a more economic and eco-friendly version making it perfect for regular users, clinics or practices.

This 5cm wide kinesiology tape is comfortable to wear, but also sticks for up to 4 days due to the premium hypo-allergenic adhesive that's being used.

Meridius® Adapta Tape is made of 72% cotton, 3% Spandex, 10% acrylic polymers and 15% ethyl acetate allowing a stretch up to 140% on its length while still being firm and supportive.

# SpoBand®

Elastic resistance band that delivers results in a safe and innovative way

## Premium. Innovative. Safe.

SpoBand® is a premium, durable resistance band that is used for muscle toning, posture correction, cardio exercises, rehabilitation and yoga.

While the typical rubber or latex bands can begin to smell after usage, SpoBand® doesn't. It's also easy to clean as it is machine washable.

Another important feature is that SpoBand® doesn't stick and melt as the regular bands do. Moreover there is no risk of injury as the high quality materials used, prevent it from tearing apart or snapping.

SpoBand® features 9 loops for different exercises or resistances making it safe and simple to use.

## Directions for use

# COHESIVE Bandage

Strong adhesive bandage that does not stick to the skin or hair, but only to itself

Strong. Flexible. Reliable.

Meridius® Cohesive Bandage is a strong adhesive bandage ideal for compression, strapping, holding ice packs on the skin and stemming blood from cuts.

This tape comes in two versions: woven or non-woven. The woven version is a good way to treat bleeding wounds as the material acts as a blood spill tape that absorbs fluid. Place a dressing pad over the wound and then tape it with Meridius® Cohesive Tape. The non-woven can be easily torn with your hands for quick use during sporting events.

Being a type of bandage that does not adhere to the skin and only to itself, it makes removing easy and pain-free.

Meridius® Cohesive Bandage is extremely popular in sports as it is becoming a replacement for PVC sock tape. Compared to the Zinc Oxide tape, the cohesive bandage efficiently protects the area without creating a discomfort as a result of pulling hair.

# CREPE Bandage

Cohesive high compression bandage made from crepe fabric

## Elastic. Protective. Secure.

Meridius® Crepe Bandage is a supportive type of bandage that is used as an aid in the treatment of knee, legs, arm sprains and strains.

Made of highly elastic material, this product is very comfortable to wear because it takes the body's contour, thus allowing the natural range of motion.

When applying Meridius® Crepe Bandage, please select the width of the bandage based on the part of the limb treated. Please make sure the bandage is securely placed, but not so tight as to cause swelling

On forearm, thigh and calf, apply the bandage around the limb in a spiral pattern overlapping at least 2/3rds every time.

For wrists, elbows, knees and ankles please apply the bandage around the limb in a 8 pattern overlapping at least 2/3rds every time.

When you finish bandaging the limb, please secure it with a safety pin.

# Elastic Adhesive Bandage

Elastic cotton bandage with a strong, hypoallergenic adhesive that helps treat sports injuries

## Elastic. Compressive. Strong.

Meridius® Elastic Adhesive Bandage is an elastic cotton bandage with a strong adhesive ideal for ankle taping, knee taping, hand and wrist taping.

This product is frequently used by sports therapists, trainers and physiotherapists to help their patients prevent injuries or secure a weak joint.

Meridius® Elastic Adhesive Bandage uses a high-quality, hypoallergenic adhesive that will last even in the toughest of environments.

This product can also be used in rugby for a better grip when lifting players in line-outs.

When applying Meridius® Elastic Adhesive Bandage, please select the width of the bandage based on the part of the limb treated.

Please make sure the bandage is securely placed, but not so tight as to cause swelling.

## Ankle strapping example

1. Start by wrapping the tape around the lower portion of the shin, above the heel, creating an anchor.
2. Then lower the tape diagonally across the midfoot.
3. Tape around the forefoot.
4. Then go around the lower calf.
5. Repeat in a figure of 8 motion until the ankle has sufficient support.

# ZINC OXIDE Tape

High-quality zinc oxide tape made to prevent injuries or help heal faster

## Supportive. Strong. Flexible.

Meridius® Zinc Oxide Tape is ideal for the prevention and treatment of ligament sprains.

Made from a strong material, it can be used to reinforce the supporting action of ligaments following an injury. For instance, a sprained ankle can be immobilised by strapping it up with zinc oxide tape.

Featuring a high-quality adhesive, Meridius® Zinc Oxide Tape is also used preventively to give extra support to vulnerable body parts, particularly wrists and fingers.

Finally, some people stick it on areas prone to rubbing to protect or prevent blisters and calluses, commonly seen during weightlifting and other sporting events.

Meridius® Zinc Oxide Tape is the result of years of research and testing to ensure we always provide you with the best product possible that helps you prevent potential injuries and heal faster.

## Thumb strapping example

1. Hold your hand with the target thumb up so the palm is facing you.
2. Start the tape on the wrist and roll it down and then behind the back of the hand.
3. Roll the tape over the top of your hand between your index finger and thumb.
4. Roll the tape down across the palm toward the wrist, like a loop. Wrap the tape around the wrist once to create a full circle.
5. Repeat these steps one more time for extra support.
6. Repeat steps one through for several times, slowly working your way higher up the thumb. Stop taping once you've reached the thumb knuckle.

## Product codes

# KROS Tape

Lattice-shaped, adhesive-backed therapeutic patch to help treat pain and discomfort

## Innovative. Flexible. Natural.

Meridius® KROS Tape is a lattice-shaped, adhesive-backed therapeutic patch that works by targeting myofascial trigger-points in the muscular tissues which often cause muscular pain and discomfort.

Being an inelastic tape, Meridius® KROS Tape helps treat pain by supporting the functional balance between muscles.

This product has been designed starting from the knowledge that physical abnormalities that result from imbalances in muscles that resist gravity tend to become sore and painful more often.

The cross-hatched shape allows air-circulation and flexibility, making it perfect for hard-to-reach areas on your feet, back or neck.

Meridius® KROS Tape can be used up to 4 days without change in the gym, on the field, in the pool or in the shower due to its adhesive and water resistant materials.

# Cupping Set

Versatile cupping set made of high-quality polycarbonate, making it safe and durable

## Durable. Simple. Safe.

Newly introduced Meridius® Cupping Sets are presented in two sizes: 10 pieces and 17 pieces. They come in a navy blue case with a firm handle which is ideal for traveling and storage. Moreover, the blue silicon valve can be detached from the cup for easy sterilisation and maintenance.

Our cupping sets are extremely versatile due to the large number of cupping shapes and dimensions available. They come in: oval shape ideal for peri-spinal regions, curved bottom for the side of the body and triangle shaped for edged surfaces.

Made from high-quality polycarbonate, Meridius® Cupping Sets are extremely durable and do not crack from falling or prolonged usage.

We offer additional cups and replacement parts in case you want to extend the range of your cupping set or you need a new part.

# Gu Gwan Moxa

Compressed tube-shaped moxa ideal for indirect moxa treatments

## Natural. Traditional. Simple.

Meridius® Gu Gwan Moxa is a natural type of compressed Korean moxa formed into a tube with a hollow centre.

This product is dried for three years before preparation and packaging to ensure Meridius® Gu Gwan Moxa will burn at a consistent, safe, controlled temperature every time it is being used.

The hollow centre allows Meridius® Gu Gwan Moxa to be placed on acupuncture needles which is ideal for indirect moxa treatments.

Our moxa is made of 100% real mugwort, also known as “artemesia vulgaris” or “ssuk” in Korean.

This herb is believed to have traditional medicinal properties that could help blood circulation and increase the general state of well-being.

# Mini Moxa

Mini tubes of compressed moxa made from 100% real Korean mugwort

## Small. Traditional. Natural.

Meridius® Mini Moxa is a traditional, all-natural compressed type of Korean moxa shaped into small tubes.

It comes in two versions: smokeless and natural. The first one produces almost no smoke or odour which makes it ideal for modern-day moxa treatments, usually performed in clinics or indoor areas.

The natural moxa is standard moxa which produces a pleasant, non-pungent aroma, ideal for those looking for a traditional feel.

Meridius® Mini Moxa comes with adhesive plasters which are used to stick the moxa on the body whilst preventing potential injuries.

Our moxa is made of 100% real mugwort, also known as "*Artemesia vulgaris*" or "ssuk" in Korean which is a herb believed to help blood circulation and increase the general state of well-being.

# Manina Moxa

Smokeless tube-shaped moxa made of 100% compressed Korean mugwort

## Safe. Natural. Smokeless.

Meridius® Manina is a smokeless Korean moxa made from 100% real mugwort, also known as “artemesia vulgaris” or “ssuk” in Korean.

This herb is believed to have traditional medicinal properties that could help blood circulation and increase the general state of well-being.

Meridius® Manina Moxa can help reduce pain, muscle spasms and swelling and can be useful to improve the blood and lymphatic circulation.

The average temperature on the skin where Meridius® Manina Moxa is applied is 43.5 degrees Celsius the equivalent of 110 degrees Fahrenheit.

Meridius® Manina Moxa is safe, patient-friendly product as the ash is designed to not fall off the cone. Even more, this moxa includes 40 pre-application plasters and lasts two times longer compared to standard stick-on moxa.

# Tiger Warmer Moxa

Cylinder-shaped compressed moxa made from 100% real Korean mugwort

## Portable. Effective. Natural.

Meridius® Tiger Warmer Moxa is a traditional, all-natural compressed type of Korean moxa shaped in small cylinders.

This product can help reduce pain, muscle spasms and swelling and can be useful to improve the blood and lymphatic circulation.

Meridius® Tiger Warmer Moxa is made of 100% real mugwort, also known as "*Artemesia vulgaris*" or "ssuk" in Korean which is a herb believed to have medicinal properties.

This product is ideally used with Tiger Warmer devices which allows the moxa to concentrate on specific treatments points all over the body even on hardly accessible areas such as face, ears and nose.

Meridius® Tiger Warmer Moxa is dried for three years before preparation and packaging to ensure it will burn at a consistent, controlled temperature every time it is being used.

# Far Infrared Pads

Premium Far Infrared Pads densely packed with yellow earth beads

## Advanced. Safe. Efficient

Meridius® Far Infrared Pads help to alleviate aches, pains, and discomforts experienced by people suffering from muscle soreness, arthritis, inflammatory joint conditions and menstrual cramping.

The therapeutic effects of heat are best realized when the heat penetrates deeply into the tissues, organs and even bones. Meridius® Far Infrared Heating Pads are densely packed with yellow earth beads radiating infrared heat for more consistent, penetrating warmth.

Adjustable heat settings give you precise control and a series of internal thermistors actively regulates temperature across every square inch of the pad. Automatic timed shut-off guarantees safety.
